<div align="center">**ANNEXURE III : BEST PRACTICE**</div>

I) PROVIDING ANYTIME ANYWHERE LEARNING TO THE STUDENTS

1. Objective of the Practice: The objectives of the MOOCs are to help to reduce the digital divide and unemployability. A MOOC Course can be undertaken by anybody anytime anywhere. An undergraduate student can undergo a programme this is not included in his/her syllabus.

2. Need Addressed and Context: The College is an affiliated one and once a syllabus is formulated for a programme, it takes several years to makes changes to it. As many employers had point out, there is a huge divide between industry expectation and what is been taught in the class room. Various MOOCs and Spoken Tutorials developed by seven IIT's and IISc helps the students to update themselves beyond the curriculum. In many MOOCs, a student can interact with the teacher, and the lecture is in vernacular language thus making a student breaking the language barrier and shedding their inhibitions.

3. The Practice: The SPOC of the MOOC determines the topics to be covered in consultation with the various coordinators. Students enroll themselves in the course of their interest and pay the required fees, if any. The class hours are inter–woven with the class time table so that student need not stay outside the college hours. The college offers courses from NPTEL, Spoken Tutorial, ICTACT, etc. All the courses have online examinations at the end of the course. Certificates are issued for the successful students.

Besides these programmes, the college has tie-up with TCS, and ICTACT for running BPS academic interface programme, and various other advanced topics in IT field.

4. Evidence of Success: The College offers MOOCs for the students for the past 3years and success rate can be evidenced from the following table.

Courses	#Enrolled	# Completed	Courses	# Enrolled	# Completed
NPTEL I	200	138	Spoken Tutorial I	88	58
NPTEL II	148	90	Spoken Tutorial II	88	72
NPTEL III	101	43	Spoken Tutorial III	86	(ongoing)
NPTEL IV	58	55	ICTACT	43	(ongoing)

5. Resources: The course materials are available on the Internet and can be freely downloaded by the students on their laptops which are provided to them freely by the Government of Tamilnadu. These courses are available freely in thousands of numbers on the website.
